SUMMARY

- Drives impactful data science and AI solutions by combining business rigour with analytical creativity
- Bridges technical data engineering solutions with business objectives, delivering measurable results across cross functional teams through clear communication and stakeholder alignment
- Expert at translating analytical insights, with 5+ years of experience, across to both technical & non-technical audiences

TECHNICAL SKILLS

Languages & Querying	SQL, Python, R, Bash
ML & AI	Scikit-learn, Pandas, NumPy, Statistical Modeling, Prompt Engineering, RAG, LLMs
Data Engineering	Data Pipelines, Informatica, Data Warehouse Design, Workflow Automation
Databases, BI & Tools	Power BI, Oracle, PostgreSQL, Git, Jupyter, VS Code, Kaggle, HuggingFace, Groq

EXPERIENCE

Data Engineer (Deputy Manager) | Axis Bank Ltd | Bangalore, India July 2022 – Feb 2024

- Engineered scalable data pipelines using Oracle, PLSQL, & Informatica to streamline dataset ingestion and accelerate BI performance across 5+ teams in a large-scale banking environment, while enforcing regulatory compliance & directives.
- Drove end-to-end unit testing and production deployment of system updates in Blaze/TRAID, resolving critical issues pre-release to ensure stability and minimize downtime across live data engineering environments.
- Partnered with cross-functional stakeholders to translate complex business requirements into scalable data solutions, improving data model performance and establishing enterprise-grade technical documentation standards.

Business Consultant | Boilex Metals Inc | Kerala, India May 2020 – Apr 2022

- Designed and implemented data-driven financial strategies and a new product sales model, applying statistical modeling to achieve 5x revenue growth and save up to 30% of annual operational turnover.
- Streamlined finance and administration through workflow automation and automated reporting pipelines while leading 2-year market research and competitive analysis, enhancing data-driven decision-making across executive leadership.

HR Intern | Remote | GAO Tek Inc | New York, US Jun 2021 – Aug 2021

- Led Interviews & Inductions. Promoted to leadership role in a month. Overseeing team coordination & task delegation

EDUCATION

University of British Columbia (UBC) Sept 2025 – June 2026

Master of Data Science (MDS) Vancouver, BC

British Columbia Institute of Technology (BCIT) Sept 2024 – May 2025

Graduate Certificate, Global Leadership – Distinction Vancouver, BC

National Institute of Technology, Tiruchirappalli (NITT) 2018 – 2022

B.Tech, Mechanical Engineering – First Class Honours Tiruchirappalli, India

PROJECTS

Electronic Testing System Migration – BC Children's Hospital May 2026

- Architected end-to-end data pipelines in R and Power BI to validate a client's transition from paper based to electronic testing, delivering analytical confirmations and stakeholder facing insights by a dashboard that quantified error reduction and reinforced system integrity.

Smart Product Review Search – Amazon Shopping Apr 2026

- Built an AI-powered shopping assistant with live pricing feature that answers customer product queries using 16K+ Amazon reviews, combining keyword & semantic search with a LLM to deliver grounded, source-cited recommendations

Global Business Strategic Plan – Uber Dec 2024

- Performed end-to-end market analysis for a global Uber strategy using PESTEEL, TOWS, GE-McKinsey, and Porter's Five Forces frameworks, into a cost-innovation strategy with a multi-stakeholder decision metric and diagnostic topology across 12+ segments to quantify strategic priorities.

LEADERSHIP & COMMUNITY

- **Sportsfete, NSS, Aaveg Organizing Committee Head, NITT (2018-20):** Directed end to end logistics, procured govt and private funding, community sustainability initiatives, budgeting, stakeholder negotiations and on site issue resolution for 75+ events, across 14 departments with 13000+ participants.
